**SUBJECT: GOODWIN CROSSING (ITEM 41/ PR #13840)**

Emily Struthers, Senior Planner, stated for the record that the Planning Department hearing item had been advertised and noticed in accordance with state and local law, and affidavits of all notices are on file in the Planning Department and provided the following staff report:

Request for a zoning map change had been received from Jarrod Edens with Edens Land and Anderson Marlowe of Marlowe Builders. The 75.43 acre site was located at 1301 and 1312 Goodwin Road. The applicant had applied for a zoning map change from Planned Development Residential 2.310 to Planned Development Residential 2.167. The proposed development plan would remove commitments from the legacy development plan. Key commitments of the proposed development plan included that the proposed development would be limited to 149 single family residential lots with a minimum lot size of 5,000 square feet. As well as a 300 foot wildlife protection buffer along Cabin Creek, a 50 foot undisturbed perimeter buffer in some areas, roadway improvements, and off-site sidewalk. Additional commitments were identified in the staff report and on the Development Plan. The Durham Planning Commission, at their December 10th, 2019 meeting, recommended approval, by a vote of 12-0, of the proposed PDR 2.167 zoning. Staff determined that the request was consistent with the Comprehensive Plan, including the Future Land Use Map and other adopted ordinances and plans. Two motions were
required for the application. The first was to adopt a consistency statement and the second was for the zoning ordinance.

Mayor Schewel opened the public hearing and asked if there were any speakers to the item.

Jarrod Edens, a representative of the applicant stated that he was available for any questions.

Council Member Reece asked if there had been any changes to the proposal since the Planning Commission meeting.

Ms. Struthers advised that there had been changes and they included an offsite sidewalk as a new commitment.

Mayor Schewel added that the applicant also proffered a minimum lot size.

Council Member Reece expressed his support for the item and thanked the applicant for their additional commitments even though the planning commission had previously voted in favor of the item in its original form.

Council Member Freeman echoed the comments made by Council Member Reece and also appreciated that the buffers had been made stronger.

Seeing no additional speakers, Mayor Schewel declared the public hearing closed.

Mayor Schewel asked for the Transportation Department to address the concerns of the residents.

Bill Judge, Assistant Director of the Transportation Department advised that a traffic impact analysis was not required for the type of site plan, but there were long term plans to extend Hebron rd.

Mayor Schewel asked when the extension would be happening.

Mr. Judge advised that the project was not currently funded so there was no timeline and signalization was not required; however a study could be done once normal traffic resumed.

Ms. Struthers stated that the proposed development was in the city limits.

Council Member Middleton thanked the residents for their comments and recognized that he was also surprised by the growth of the city. Council Member Reece thanked staff for their work on the item; however he advised that he would not be supporting the item as there was no way to know the impact of the
development on the surrounding areas, there was no development plan, and that the item should have gone back before the Planning Commission.

Mayor Pro Tempore Johnson stated that the Affordable Housing crisis was always at the top of her list and expressed her intentions to support the item.

Council Member Caballero stated that the applicant was only doing what the city allowed and that the city would have to evaluate how similar cases would be addressed in the future. She recognized the concerns from residents and expressed her support for the item.

Council Member Freeman stated that the proposed development was in a watershed and that there was no way to know the price that the homes could be.

Council Member Middleton aligned himself with the comments made by Council Member Caballero, agreed with Mayor Pro Tempore Johnson regarding affordability, and stated that there were structural challenges in the process; however it could not be changed on a case by case basis.

Council Member Reece stated that the owner would have no way of knowing what a future builder would charge.

Michael Stock, Senior Planner, stated for the record that the Planning Department hearing item had been advertised and noticed in accordance with state and local law, and affidavits of all notices are on file in the Planning Department and provided the following staff report:

Text amendment TC1900005 amended the current definition of an “affordable housing dwelling unit” within Sec. 17.3, Defined Terms, of the Unified Development Ordinance (UDO). The amended definition did three primary things while keeping the definition focused and consistent the federal definition of low-income housing:

1. Reflects differences between rental and for-sale units
2. Allows for flexibility as residents’ income increases, and
3. Ties to the new compliance rules and procedures developed by the City Community Development Department, which were recently adopted by City Council, for tracking affordable housing units built under the UDO’s Affordable Housing Bonus Program (Sec. 6.6) and other incentives within the UDO.

Two actions were required, the first was for the consistency statement and the second was for the ordinance itself.

Mayor Schewel opened the public hearing and asked if there were any speakers to the item.
