## Water Management to Host Public Q&A for Central Park Project

*Area Residents Invited to Department Event at Durham Armory on May 25*

DURHAM, N.C. — In an effort to provide more information and answer questions about ongoing waterline improvements in the Durham Central Park vicinity, the City's Department of Water Management is hosting a public informational session on Thursday, May 25 at the Durham Armory at 220 Foster Street. Area residents are encouraged to stop by between 6:00 and 7:30 p.m. to learn more about upcoming work, and meet employees from Water Management and other City departments, as well as representatives from J.F. Wilkerson Contracting, the construction company performing the work. Comments and questions are welcomed and appreciated. There will be breakout sessions, project posters, and other resources detailing the project. Comment cards, brochures, and signup sheets will also be available to event guests.

### About the Durham Central Park Waterline Replacement Project

The Department of Water Management is improving existing infrastructure in the City's Central Park area. The project's study/design phase was completed in 2016, with limited construction beginning late last year. Construction is expected to last approximately 18 months. Please visit <http://durhamnc.gov/1251/> for more information and to sign up for weekly project updates delivered via email and/or text message.

### About the Department of Water Management

The Department of Water Management is responsible for the operation and maintenance of Durham's water supply, water treatment and water reclamation (wastewater treatment) facilities, the collection and distribution systems (including meter reading), and customer billing services. The department has a wide variety of support divisions and programs to maintain the existing infrastructure that provide these integral services, and strives to be a responsible steward of the City's physical assets.
