Durham Hosts N.C. Highway 54 Pedestrian Facilities Meeting *Drop-In Style Meeting to Collect Resident Input on Design Plan*

DURHAM, N.C. – If you live, work, or travel along N.C. Highway 54 East in Durham, you'll want to mark your calendar for a meeting later this month to review the design for sidewalks along this busy road.

The City of Durham Public Works Department has prepared the design for [pedestrian facilities](#) along N.C. Highway 54 from east of N.C. Highway 55 to the western limit of Research Triangle Park, and staff wants to share their work to date and get resident input.

The drop-in style meeting is set for Tuesday, November 27 from 5 p.m. to 7 p.m. in the [Durham County South Regional Library](#) (South Meeting Room on the left side), located at 4505 S. Alston Ave.

Residents will be able to review the proposed design, ask questions of Public Works staff, and provide input before the department completes the final design work. For residents who can't attend the November 27 meeting, maps and a comment form to collect their feedback will be available on the [project website](#) on November 27.

This is a pedestrian project only, so it will not include road widening to expand the traffic capacity or the intersections within this corridor. This is the first community meeting to collect resident input for this project. There will be another community input meeting for this project at the 65 percent stage of the design.

For additional information about this project, contact Edith Peters, PE with Davenport & Associates at (704) 208-4923 or by email at EPeters@davenportworld.com, or David Cates, PE with the City's Public Works Department at (919) 560-4326, ext. 30232 or by email at David.Cates@DurhamNC.gov. Persons who require assistance to attend the meeting should call (919) 560-4197 or email ADA@DurhamNC.gov no later than 48 hours before the meeting.

About the City of Durham Public Works Department

The City of Durham [Public Works Department](#) provides a wide range of services, including street maintenance, engineering design, development review, and stormwater quality and infrastructure maintenance. The department plans and executes the City's winter weather and natural disaster plans. The department also ensures that Durham's street infrastructure is safe and well maintained, which supports the quality of life and serves as a foundation of a healthy economy. As guided by the [City's Strategic Plan](#), the department serves as a steward of the City's physical and environmental assets and ensures that residents live in a safe, secure, and thriving community.
